

# Programme

Thursday, September 29th (2011)

(Center for Research in Biological Chemistry and Molecular Materials)

|             |                                                                                                                                                |
|-------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| 9:15-9:25:  | Opening ceremony.                                                                                                                              |
| 9:25-9:45   | <i>From nitro sugars to iminosugars</i><br>Dr. Juan C. Estévez Cabanas (University of Santiago de Compostela, Spain)                           |
| 9:45-10:00  | <i>Indium mediated synthesis of iminosugars</i><br>Dr. Raquel G. Soengas (University of Aveiro, Portugal)                                      |
| 10:00-10:20 | <i>Recent contributions to iminosugar chemistry</i><br>Dr. Soledad Pino González (University of Málaga)                                        |
| 10:20-10:40 | <i>Asymmetric Diels-Alder Cycloaddition in the Synthesis of Iminosugars</i><br>Dr. Maria Jose Alves (University of Minho, Portugal)            |
| 10:40-11:00 | <i>Carbohydrates in sustainable development of functional molecules</i><br>Dr. Amelia P. Rauter (University of Lisbon, Portugal)               |
| 11:00-11:30 | <i>Coffe Break</i>                                                                                                                             |
| 11:30-12:00 | <i>Seven-membered iminosugars: from glycosidase inhibition to skeletal rearrangement.</i><br>Dr. Yves Blériot (University of Poitiers, France) |
| 12:00-12:45 | <i>Enantiomeric iminosugars - small and accessible carbohydrate mimics</i><br>Professor George W. J. Fleet (University of Oxford, U. K.)       |
| 13:00-13:45 | <i>Colloquium on Perspectives in Iminosugar Chemistry</i>                                                                                      |
| 14:00-15:30 | <i>Lunch at "Monte de la Condesa" Hall</i>                                                                                                     |
| 15:30       | <i>Free time</i>                                                                                                                               |
